

# REMIQ AD SAMPLER LITE

## MACOS FIRST-LAUNCH GUIDE

Follow steps 1-8. These security steps are required only for the first launch.

### WHY DOES MACOS BLOCK THE APP?

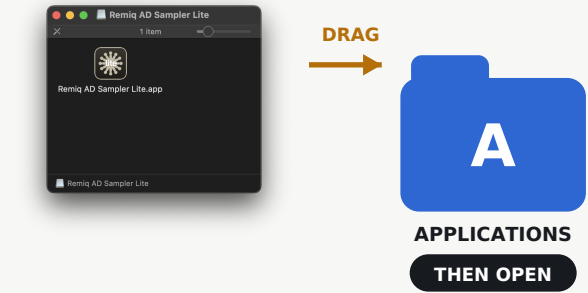

This release is not yet notarized by Apple. The official ISINDI download is safe. Apple notarization is in progress.

#### 1 DOWNLOAD

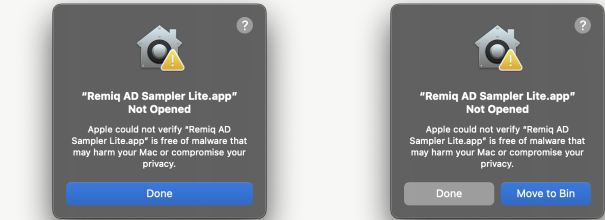

Download the macOS .dmg from isindisound.com, then open it from Downloads.

#### 2 INSTALL THE APP

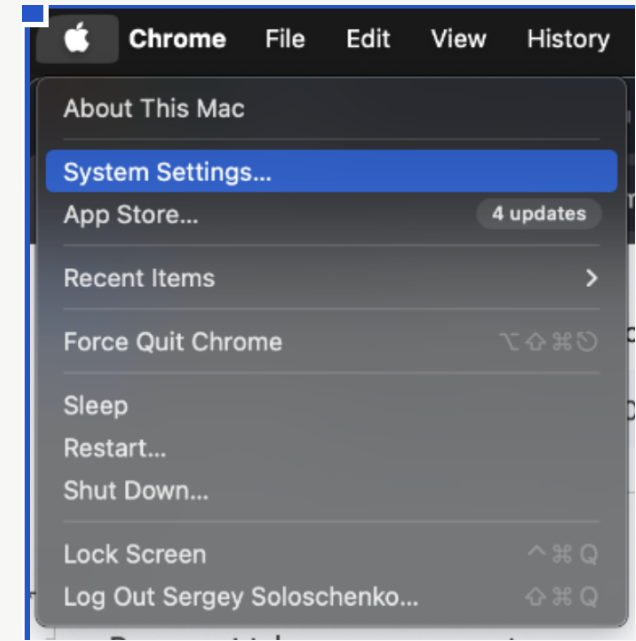

Drag Remiq AD Sampler Lite.app to Applications, then open it from Applications.

#### 3 DISMISS WARNING

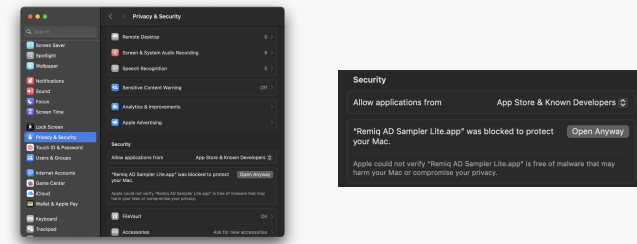

Click Done. If Move to Bin appears, do not select it.

#### 4 SYSTEM SETTINGS

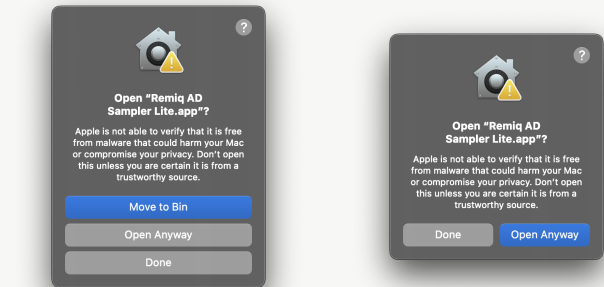

Open the Apple menu and select System Settings.

#### 5 ALLOW THE APP

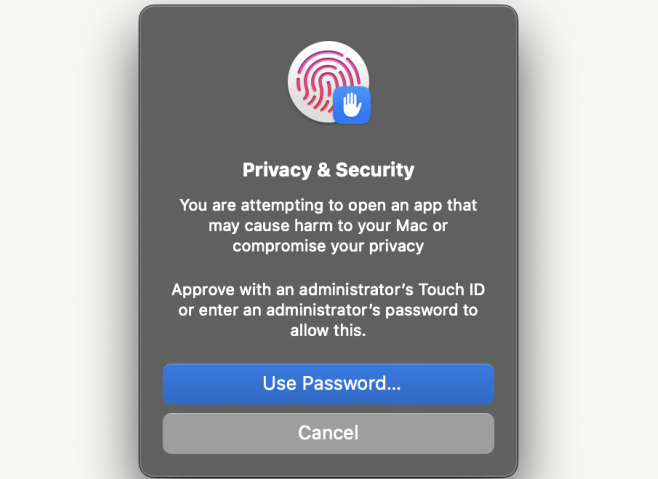

Privacy & Security -> Security -> Open Anyway.

#### 6 CONFIRM

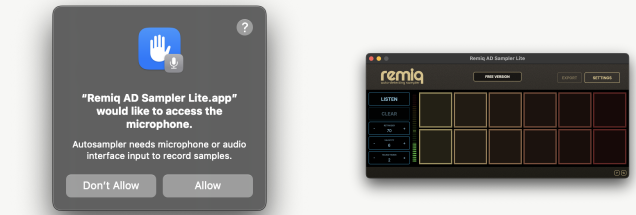

When macOS asks again, click Open Anyway.

#### 7 AUTHENTICATE

Use Touch ID or enter an administrator password.

#### 8 ALLOW MICROPHONE

Click Allow. Remiq will open and is ready to record.
